

Soft side velcro
reverse of fabric

The diagram shows a black outline of a garment piece, possibly a sleeve or a skirt section, with a curved edge. A green trapezoidal patch is attached to the upper part of the piece. The patch has two diagonal lines crossing in the center, dividing it into four triangles. The text 'Soft side velcro reverse of fabric' is written inside the top-left triangle of the patch.

Abs Backing

The diagram shows a cross-section of a car seat backrest. At the top, there are several trapezoidal shapes representing the seat's upper structure. Below these is a large, solid rectangular area labeled 'Abs Backing'. The bottom of the diagram shows the seat's base structure, including a central vertical support and side panels.

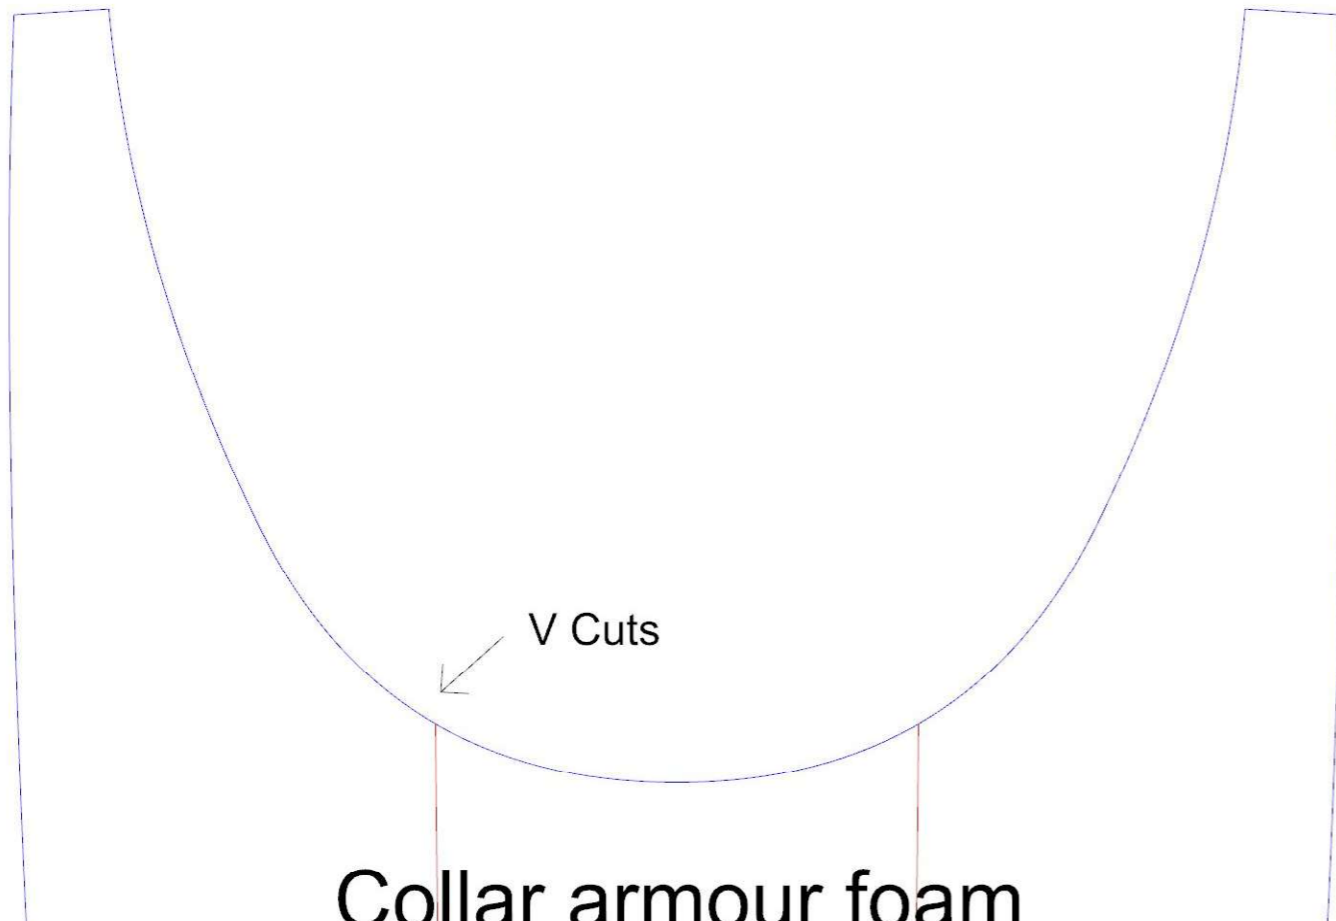

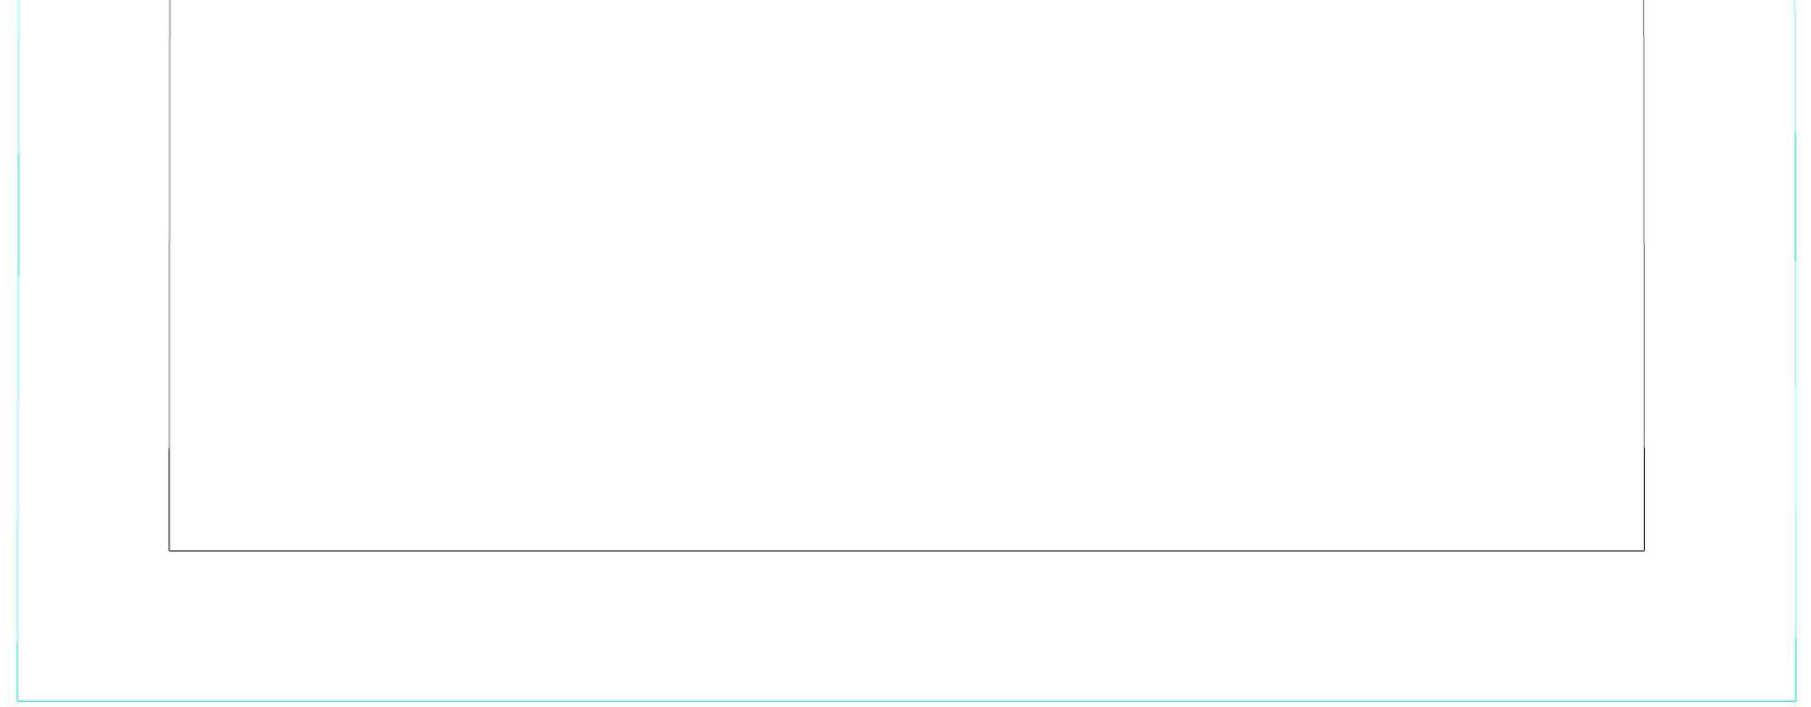

Abs (Padded)

The diagram shows a cross-section of a car seat backrest. It features a large, solid rectangular area labeled 'Abs (Padded)'. To the right of this area, there is a vertical line labeled 'glue around foam padding and fabric base'. The bottom of the diagram shows the seat's base structure, including a central vertical support and side panels.

Sew to Back of assembly

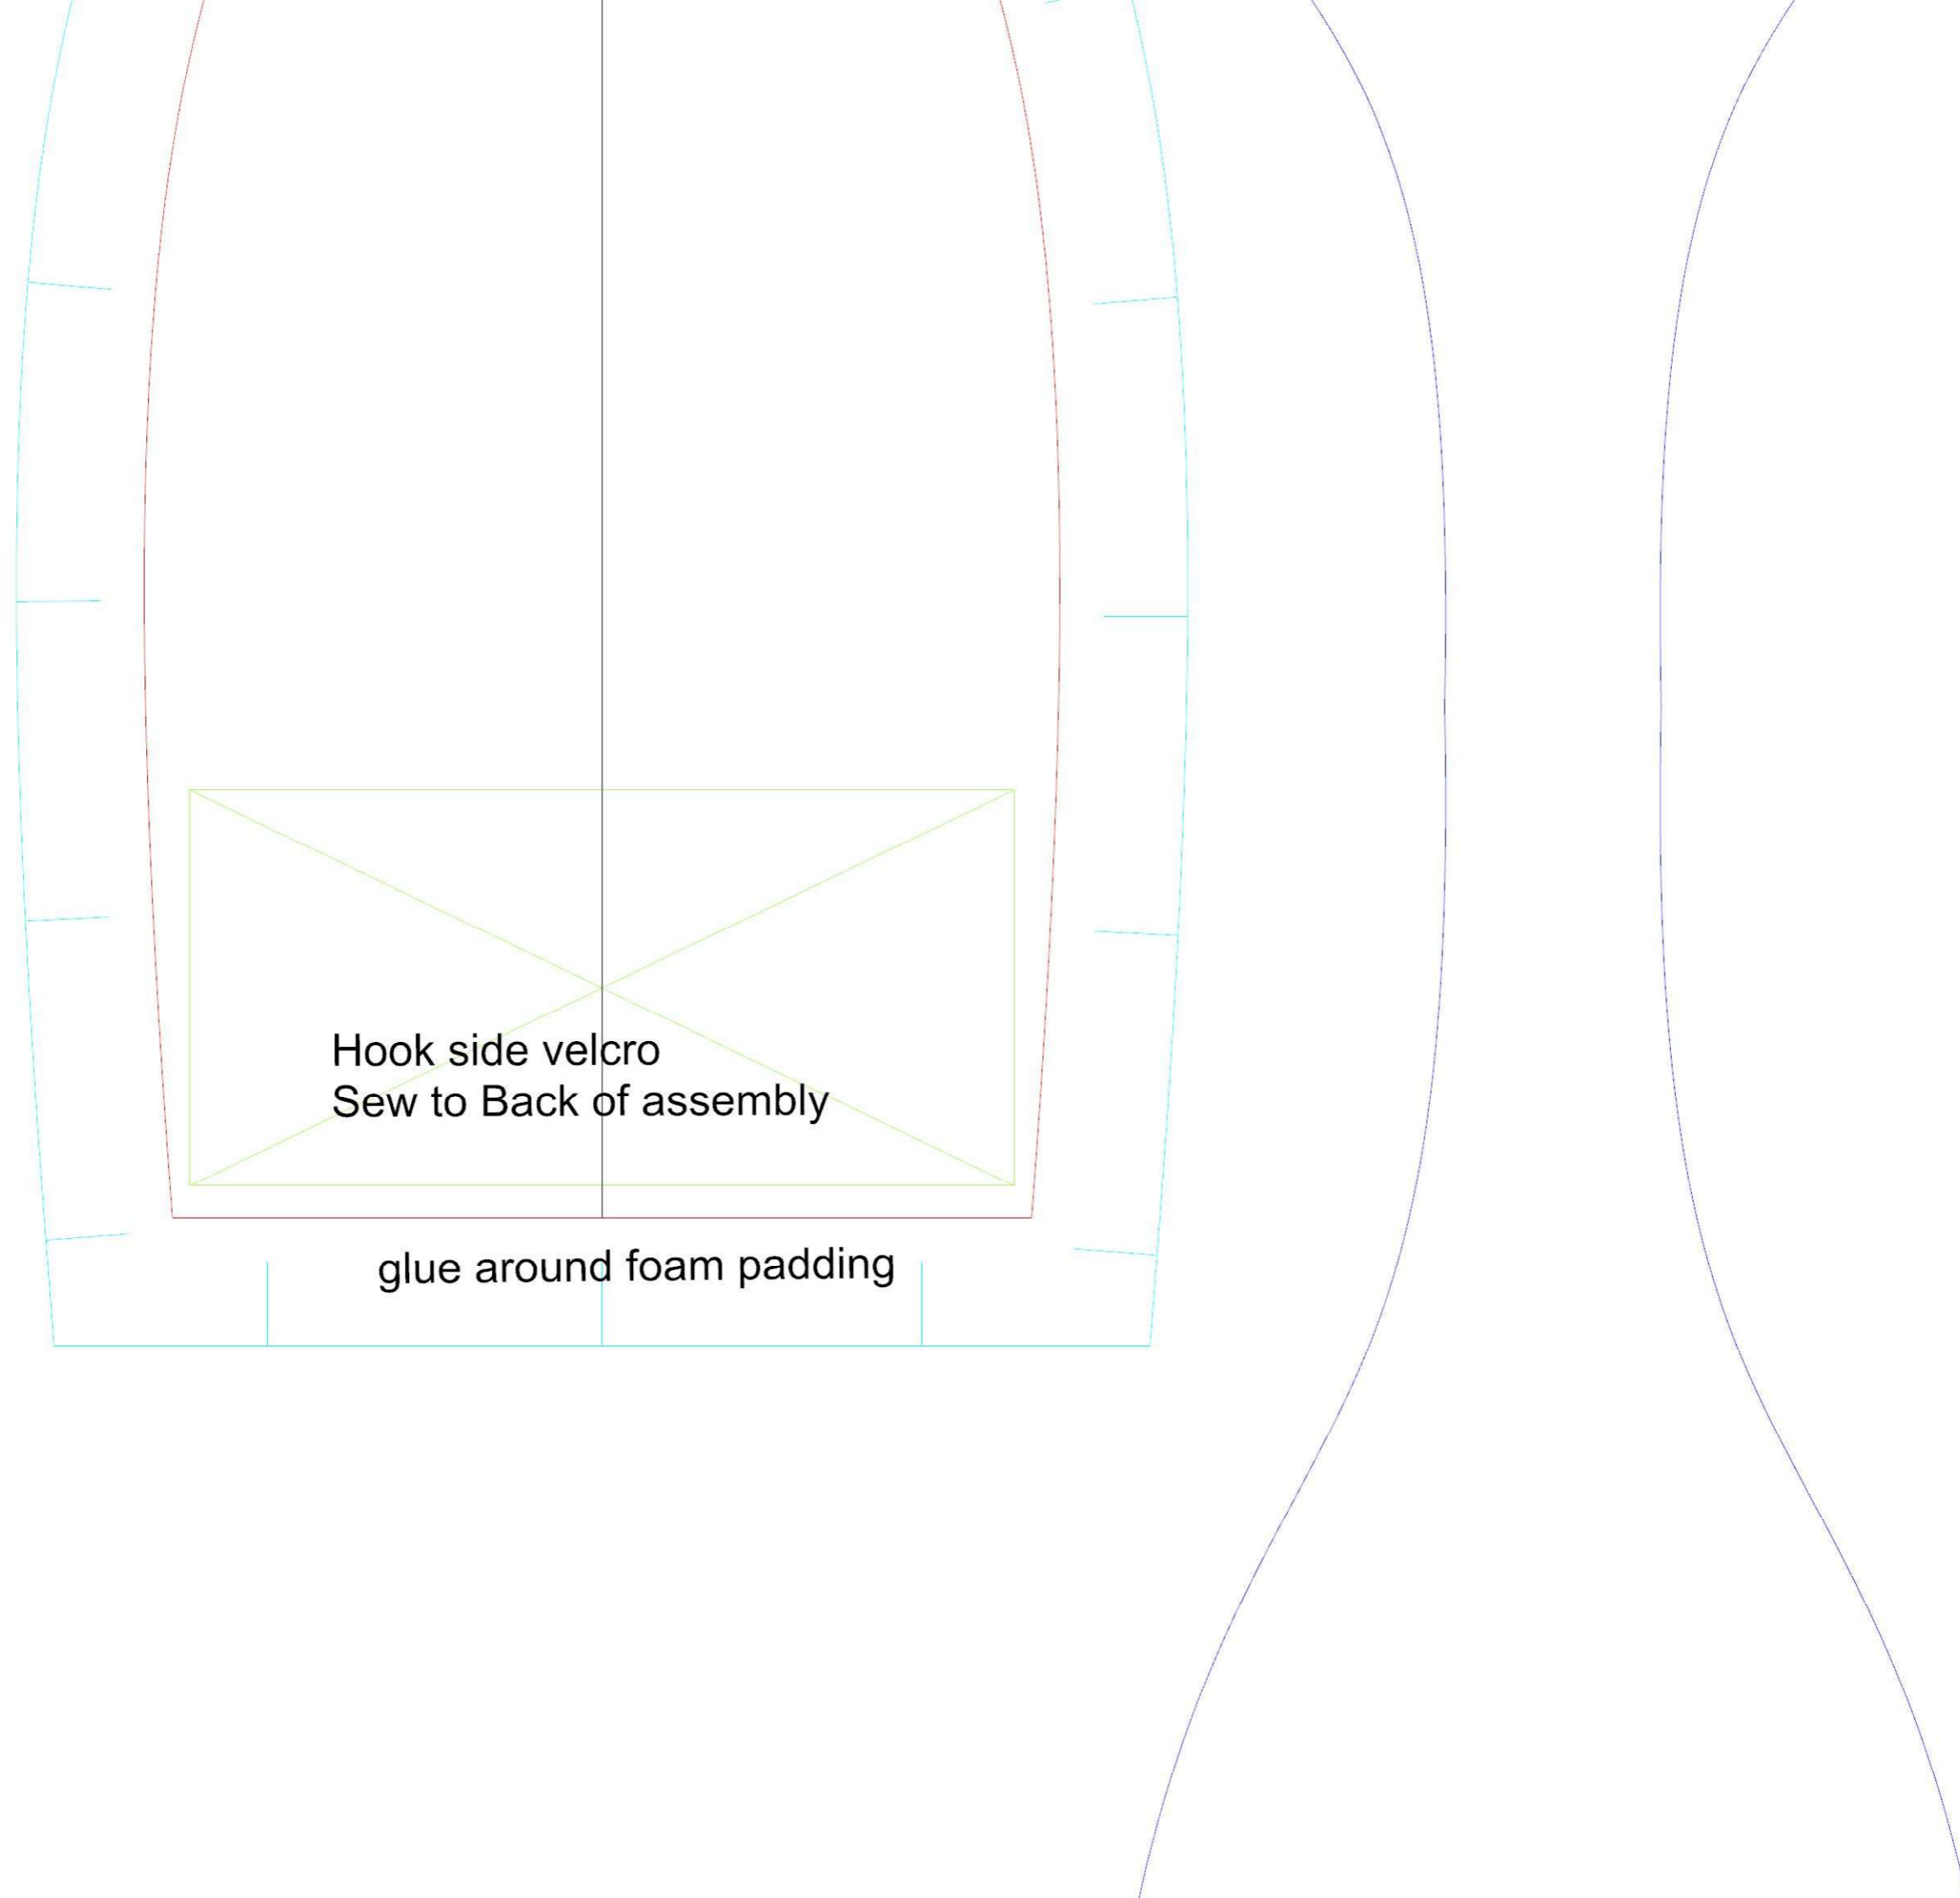

The diagram shows a light blue pattern piece for a garment, possibly a diaper or brief. It has a central vertical line and a horizontal line near the top. A green rectangle at the top contains a hook side velcro strap. The crotch area is labeled 'Crotch (Padded)'. The pattern piece is surrounded by a red line, and there are several small blue lines indicating fold lines or seam allowances. A small rectangular piece is visible at the bottom right corner.
